

Ecocapsule - The first truly independent micro-home

Prototype will be presented on public for the first time!

First functional prototype of the independent micro-house Ecocapsule will be exhibited in the foyer of the Hofburg palace as a part of Pioneers festival 2015 event in the Vienna.

Ecocapsule is smart house powered purely by the solar and wind energy. It allows people to reach the frontiers with the luxury of the hotel room. It can serve as micro-house, cottage, pop-up hotel or even as charging station for electromobiles.
