IMPRIlight[®]

MICHELE | MALIN | DESIGN

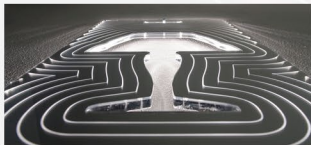

www.malinmichele.wixsite.com/mmdesign

IMPRlight®

"Impint light" ovvero impronta di luce, una serie di fasci luminosi che si propagano in maniera equidistante dal loro centro.

Una lampada da parete realizzata in plexiglass, caratterizzata da un gioco di pieni e vuoti, una sorta di "aura" magica che si propaga su tutta la superficie dell'oggetto, fasci di luci positivi che si materializzano dal nucleo, cavo, del materiale.

IMPRlight è l'ideale per il vostro living contemporaneo e per chi vuole un oggetto ricercato ed emozionale!

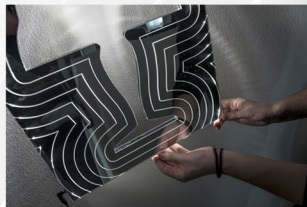

cod. IML01P

"Imprint light" or footprint of light, a series of light beams which propagate at a point equidistant from their center.

Δ wall lamp created in plexiglass characterized by a game of full and empty, a kind of magical "aura" that spreads over the entire surface, beams of positive lights that materialize from the core, cable, material.

IMPRlight is ideal for your contemporary living and for those who want a sophisticated and emotional object!

IMPRlight è fornita di un telecomando wireless per l'accensione e spegnimento della lampada e di un alimentatore a normativa CE.

MIRRORLAMP®

MICHELE | MALIN | DESIGN

MIRRORLAMP®

Mirror Lamp is the only lamp / complement of furniture that create a surprising illusion of depth in the object.

Δ mirror panel and 16 plexiglass sections reinterpret the classic structure of the lamp and give it a contemporary style.

Inside the product strips of LEDs go to propagate light along all sections, and thanks to the panel mirror they creates an illusion of depth, both in the structure both in the light that pervades it.

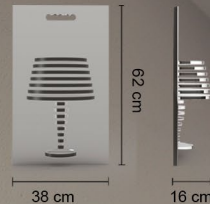

Detail view of the lamp from the bottom to the top.
The light bounces off into the mirrored surface and create an effect of unique depth of its kind.

MIRRORLAMP

TABLE®

MICHELE | MALIN | DESIGN

www.malinmichele.wixsite.com/mmdesign

MIRRORLAMP[®]TABLE

Mirror Lamp TABLE is the innovative desk lamp.

An inclined mirror structure allows the propagation of light and the plexiglass sections to 360°, giving the illusion of depth and suspension.

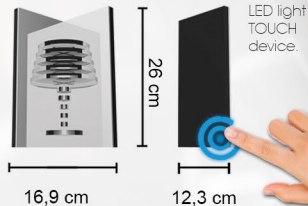

True object of design, Mirror Table Lamp is ideal for your contemporary living.

Placed on a plan, Mirror Lamp Table will expand and will illuminate the space around you so EXCLUSIVE and UNIQUE!

Mirror Table Lamp turns on and off through a "TOUCH device" located in the back of the object, visible thanks to a shade of blue LED light.
