Edouard Cabay is a registered architect at the Catalan College of Architects in Spain and is graduated from the Architectural Association School of Architecture in London. After gaining professional experience in London, Tokyo and Brussels, he founded Appareil in Barcelona in 2011, an office developing architectural and research projects both in Spain and abroad.

In parallel to practice, he currently teaches at the Institute for Advanced Architecture of Catalonia in Barcelona as Senior Faculty and director of the Open Thesis Fabrication Program.

He has taught at the Architectural Association School of Architecture as a diploma unit master, at the IAAC as Faculty of digital fabrication, has been Associated Professor at the Ecole Spéciale d'Architecture in Paris and Studio director at the Ecole Polytechnique Fédérale de Lausanne.

He has extensive experience in the format of international academic and professional workshops. Since 4 years, he runs the AA Visiting School Barcelona; has directed the workshop "Crade et Vivant" with Michel Gondry, an encounter between architecture and film at the IAAC; is hired by the University of Sinaloa (Mexico) for a yearly workshop on 1:1 construction of innovative structures; he has co-coordinated "House 1", an Epfl first year project of which the outcome is a 1:1 construction in Lausanne and co-directed "12 Cities", a 1:1 construction in Versailles...

He has curated the exhibition Traces - delineating incidents at the Cercle Artistic Sant LLuc in Barcelona which features drawings that translate natural forces into graphical manifestations, under the concept of order and indetermination.

Edouard Cabay has lectured and ran workshops in Spain, Colombia, Iran, Morocco, Serbia, Italy, France, Belgium, Serbia, Mexico, Singapore, India, Ecuador, Switzerland, Georgia and Ethiopia.
