

## **About OEO Studio**

OEO Studio is a multi-disciplinary design studio established in Copenhagen in 2003 with a focus on interiors, architecture, product design and brand innovation. Headed by Head of Design, Creative Director and Founder Thomas Lykke – former interiors editor at Wallpaper\* Magazine, and Managing Partner Anne-Marie Buemann, OEO Studio has created award-winning designs for a broad spectrum of discerning clients, from centuries-old crafts companies to corporate producers of high-quality products, including Georg Jensen, Dinesen, the Michelin-starred restaurant Kadeau, Takashimaya, Brdr. Krüger, Flos Scandinavia, Leica Camera Japan, Japan Handmade, Stellar Works, Hosoo and Sony HQ.

OEO Studio always seeks to instill a sense of necessity, one that reflects their belief that great design is driven by passion and shaped by the vision to make a difference in a relevant, natural and respectful way. Their approach to design is holistic. To OEO Studio, communication is just as important as the product itself. OEO Studio seeks to touch and inspire people on an emotional level, to create engaging design universes with an international outlook.

OEO Studio's current projects include the redesign of Flos's showroom in Copenhagen, Brdr. Krüger's first showroom in Denmark, NATUR & Nicolai Bergmann Jewellery Store in Tokyo, and a furniture collection for HBF Furniture which will launch at Neocon in June.
