

Edoardo Tresoldi presents Tresoldi Studio with a unique event in Milan

With a **unique event** attended by 400+ guests, on **June 28th** **Edoardo Tresoldi** presented **Tresoldi Studio**, his new **headquarters** in Milan's lively former industrial **Mecenate** area. The red-brick citadel that echoes the London Docks, already home to Gucci Hub and Sky and to established realities such as the live music venue Fabrique, East Market and East End Studios, is a candidate to become one of the new creative neighborhoods in Milan.

The event, in partnership with Zero Eu lifestyle magazine, culminated in a party with sound selections by Milan-based DJ and producer **Mace**, with DJ sets by Volantis & Nicodemo (Alzaya Records), Somne and Mace himself.

Tresoldi Studio is the place where the Milanese artist's original visions translates into gestures.

Housed in a **former 700 square-meters industrial space** and divided into office and workshop areas, Tresoldi Studio offers itself as a **new creative factory** in an international and exciting city like Milan, devoted to innovation and to continuous transformation. A small metropolis on a human scale that is meant as a **contemporary urban factory** to network, experiment and start interdisciplinary collaborations.

Tresoldi Studio is, for Edoardo Tresoldi, an **open place** and the **starting point** for **triggering new collaboration networks**.
