

# I AM 3+1

3+1 is the quaternary essential manifestation, it is this nature elements connection which it is find in the Grand Canyon.  
 EARTH — WATER — LIGHT + SKY

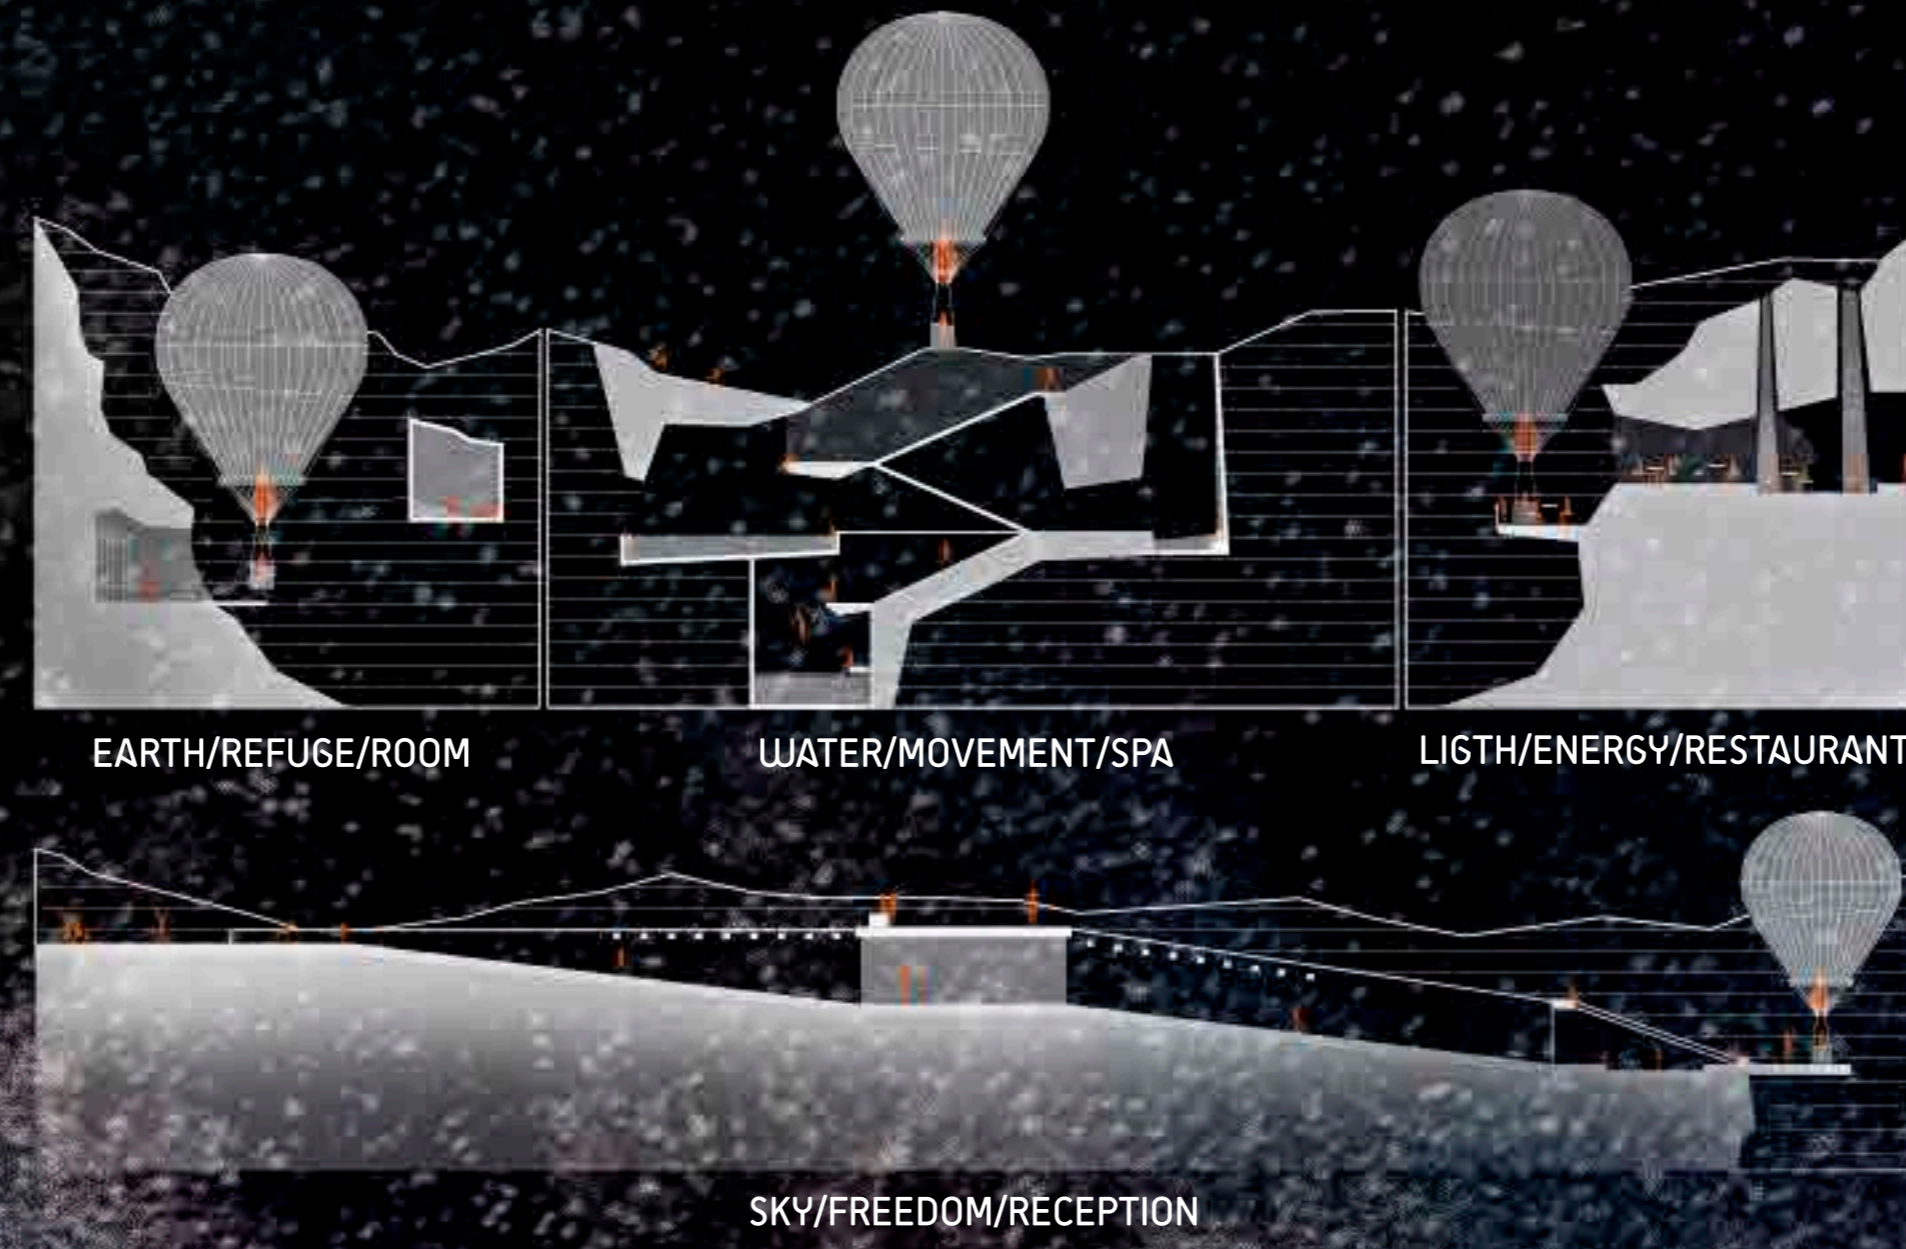

This project is looking for the Canyon's spirit through sensorial experiences which are all related to these elements. People living nature while they are part of it. The architecture is the way, the cord, the link to join what has been separated: The people from nature.

The earth is men's refuge. It is their home where the bonfire warms them under the stars. The water is the movement between mountains. It is the sound of the stone and the chance to flow letting everything go.

The light feeds our energy with an amazing view which is ready to discover. The balloon connects the sky with the people and their dream to fly. Everyone will break free while looking at the moon and the view. These new experiences will meet in the majestic hotel.

I am movement, freedom, energy, and refuge. What it is essential, is it invisible to our eyes. Each encounter will take us deeper to recover our own nature.
