MANHATTAN. NYC

**About #WeThePlanet**

On 21st of September 2019, Kunal Sood and Laura Muranaka launched #WeThePlanet at the United Nations Headquarters during UNGA Week in New York City. Kunal Sood and Laura Muranaka are the Co-Founders of #WeThePlanet, a global organization to unite in action the youth and the elders to reimagine our approach to planet, people, peace, prosperity, and partnership to protect all life on land and under the sea. #WeThePlanet is a global movement to make the impossible possible.

**We as humans must go beyond 'We The People' and focus on serving something that is larger than ourselves; as a collective we must come together without fear or favor and become #WeThePlanet.**

For more information, please visit <https://www.wetheplanet.io/> or email [laura@wetheplanet.io](mailto:laura@wetheplanet.io).

Over the past decade, we have convened 40 high-level summits at the United Nations, including TEDx and NOVUS Summit at the UN General Assembly to unite humanity through science, innovation and technology to achieve the 17 UN Sustainable Development Goals. We have partnered with the Office of the UN Secretary General and President of the UN General Assembly to curate and produce the first-ever SDG Innovation, SDG Youth Dialogue and SDG Moonshots Summit, which was our most recent initiative in partnership with the UAE Permanent Mission to the United Nations to democratize the 17 SDGs as humanity's ultimate moonshot on earth. #WeThePlanet was selected for the inaugural Economy of Francesco by Pope Francis and the Vatican to reimagine our approach to planet, people, peace, prosperity, and partnership. Together with Nobel Laureates and Pulitzer Prize-winning authors from the New York Times, we unite world leaders and visionaries to envision how entrepreneurship, science, innovation, technology and design can protect all species.
