Yet a brief history

In 2010 '*jan de vylder architecten*' changed into '*architecten de vylder vinck taillieu*'.

This is not only due to growth or ambition of '*jan de vylder architecten*'; but also because of intrinsic interest and desire of '*jan de vylder architecten*' and '*jo taillieu architecten*' to work together.

With this also the name of Inge Vinck became visible; until that time rather invisible although present as partner of '*jan de vylder architecten bvba*'.

Initially the office started up in 2008 as '*jan de vylder architecten bvba*'.

Yet at that time Jan De Vylder and Inge Vinck were both architect-principle.

Before 2008 the office was called '*jan de vylder en trice hofkens architecten fv*'; office established by Jan De Vylder en Trice Hofkens in 2001. In 2008 Trice Hofkens quitted the office.

Until 2010 Jo Taillieu ran his own office under the name '*jo taillieu architecten bvba*'.

And another new future history - JIJ'S

2011

To give place to daytime dreaming – believe it or not – on all kind of things which seemingly have nothing to do with each other although it might be; Jan De Vylder, Inge Vinck and Jo Taillieu founded in partnership with Serge Vandenhove an off-shore studio on the making of things – furniture, objects or anything else which does not belong to the pure practise of architecture –.

JIJ's are the initials of all the first names.
