MAER *Charme*
semiprecious stones

Part of the nature's repertoire, these stones are exceptional raw masterpieces, admired and appreciated since ancient times have been classified by their gems under the renowned name of semiprecious stones.

Created in nature's mysterious laboratories, over many thousand years, these stones are just one of the source from where the absolute beauty originated. Their structure is a perfect architecture of small crystals coming in an infinite array of colors and depths. These semiprecious stones expressing the essence of elegance, class and beauty are the ultimate touch of perfection for any interior, from classic to modern, from romantic to contemporary...

Touches of gold and silver, a large choice of textures and colors expand and enhance their ability to fit any interior or design.

We can create unique, exclusive pieces with any dimensions and also a variety of applications including kitchen & bathroom surfaces, work surfaces, counter tops, floors, walls, furniture, special features and more.

We pride ourselves in the fact that all our products are handmade and possibility of our client to supervise the manufacturing process. This way we are sure that MAER Charme quality and design will exceed your expectations and you will establish a personal relationship with the product.

SPECIAL ENVIRONMENT

We are able to produce more materials resistant for outdoor use that are recommended for Yacht manufacturing industry but also for exterior decorations, swimming pools, facades, terraces and garden furniture, spa centers etc.

These stones can be an extraordinary offer for outdoor design, thanks to technical characteristics:

- exposure temperature: -20°C ~ +90°C / -4°F ~ +194°F
- resistant to UV atmospheric factors
- seawater resistant
- it can be installed both horizontally and vertically
- color selection suitable for outdoor use.

CUSTOM PRODUCTION

Maer Charme can provide all sizes from small up to 315x180cm/124x71in. Our company can produce any dimensions on customer's request. We can provide pieces according to the project, custom made and special design (leaves, flowers, butterflies, dragons, etc). This means there is no material loss, the price includes only the required surface and no scrap.

We produce optimal sizes, to minimize losses on cutting, for each individual project.

Execution standard thickness is 2 cm, but we can also produce other thicknesses: from 0.6cm up to 3 cm.
