CITYLIFE SHOPPING DISTRICT, THE LARGEST URBAN COMMERCIAL DISTRICT IN ITALY

Situated in the heart of Milan, CityLife represents one of the most important urban regeneration projects in Europe, featuring a well-planned, balanced mix of public and private functions including residential units, offices, shopping, services, green areas and public spaces.

A UNIQUE COMMERCIAL OFFER

The CityLife Shopping District tenant mix is positioned at the "premium" level but is, nevertheless, accessible and in line with the target audience of people working in the offices and located within the catchment area. The Shopping District hosts a significant presence of brands covering clothing, services, restaurants and areas dedicated to entertainment and free time. Indeed, the centre has a

multi-screen cinema with a total capacity of 1,200 seats and it features distinctive services dedicated to health, beauty and wellness which will allow the centre to be viable both during the day as well as in the evenings and on the weekend.

Connections with the city

CityLife is well-served by public transport, including the Purple Line (M5) of the Milan's subway, with a new stop at Tre Torri. Furthermore, underground parking will be available for 1,500 cars.

Sonae Sierra has partnered with Generali Real Estate to develop and manage the Shopping District at CityLife

Sonae Sierra has provided all the professional services during the development and construction phases of the centre, and will provide Asset and Property Management services after the opening.
