Il 22,5 % della popolazione ha più di 65 anni // gli stranieri sono il 12% della popolazione totale // 20.000 gli studenti non residenti // Fino a 10 anni fa gli abitanti del centro storico di Perugia erano 25.000, ora sono 10.000 // Dal 2009 ad oggi 52 negozi hanno chiuso i battenti e adesso sono vuoti e abbandonati. Residenti e commercianti dell'acropoli si sono spostati in periferia // Il 35% degli appartamenti già costruiti rimane invenduto e i prezzi continuano a calare. Le case sono da ristrutturare e non ci sono abbastanza servizi // La città è priva di attività culturali: non ci sono più cinema, né biblioteche aperte fino a tardi e il numero degli studenti comincia a calare // Perugia conta 2 università, i cui iscritti sono calati di 4mila unità negli ultimi 5 anni // In centro ci sono interi quartieri disabitati, come Porta Pesa o Porta Sant'angelo, saranno rimasti circa 40 residenti // nel 1971 c'erano 39.000 abitanti, oggi 9.000, complice il decentramento dei servizi e delle attività commerciali // cit.
