## ABOUT

PPA is a north Italian based architecture and Design firm dedicated to develop an innovative and contemporary approach towards architecture, urbanism and design. Our declared aim is to achieve highest possible quality, excellent detailing and the creation of an integrated strategy involving the individual needs of the user, regardless of the budget. In all projects an appropriate integration of the architecture into its surroundings is a priority, all project solutions are determined and informed through sustainability, value engineering and rationalization. From an early stage projects are set up with the ambition to develop intelligent building solutions regarding room layout, structure, building process and reduction of construction costs.

## SERVICES

## PROFILE

Peter Pichler was born in Bolzano, Italy in 1982. He was studying Architecture at the university of applied Arts Vienna and in the US at the university of California, returning back to Vienna where he graduated with distinction in the masterclass of Zaha Hadid and Patrik Schumacher.

Already during his studies Peter is joining Zaha Hadid in London, where he worked on several competitions covering all scales and on the award winning Nordkettenbahn in Innsbruck. He spent a while in Rotterdam working for Rem Koolhaas after turning back to Vienna and joining the team of Delugan Meissl, collaborating on an award winning concert hall in Amman, Jordan.

After finishing his diploma Peter goes to Hamburg where he is working for Zaha Hadid as a project architect on a the new library and learning center in Vienna and on a 150.000m<sup>2</sup> mixed used development in Bratislava.

He turns then back to Italy and establishes Peter Pichler Architecture in Bolzano.

Peter Pichler is a registered Architect in Italy and member of the chamber of architects of the autonomous Province of Bolzano.
