INTRODUCTION

We are inspired by the natural light and our main goal is to re-create this harmonious and positive vibe in inner spaces. We produce our crystal chandeliers in our very own workshop using traditional artisanship. This classic technology allows us to create one-of-a-kind lighting creations. They are unique pieces of art that add immense character to the scheme.

We ultimately believe that good design should make the world around us a more beautiful and harmonious place to live and we're passionate about bringing light to you in its purest form by our lighting creations.

ORIGO

Compact sized contemporary crystal pendant, created to add warmth and glamour into the interior. Provides the possibility of infinite arrangements of various clusters, but can be also used as a single pendant. Skillfully handcrafted, polished copper lampshade with Swarovski® crystals.

Spun solid brass pendant with Swarovski® crystals.	16	5
Light source: 16/18W, 3000K, LED incl.	20	5

ORIGO

ORIGO STAR

With the play of symmetry and harmony, we created Origo Star crystal chandelier. It is a majestic lighting creation that completes the space with its elegant and refined design.
