Vé lamp  
.....  
cold edges...

## CONCEPTION

The shape of the lamp is very similar to wedge that aims to blend with the surrounding world. Its linkage at the centre of gravity allows it to “float” properly despite the fact that the sculpture is not symmetrical. Thanks to its multi-view it offers the possibility to create sculpture compositions by using several pieces of the lamp.

*Designer: Gabor Kodolanyi*

## PRODUCT SPECIFICATIONS

**Material:** white semi transparent PMMA, light blue textile cord cable

**Cleaning:** using wet cloth after the power is switched off

**Warranty:** 5 years on the lamp fixture, 3 years on all other fittings
