Color palette

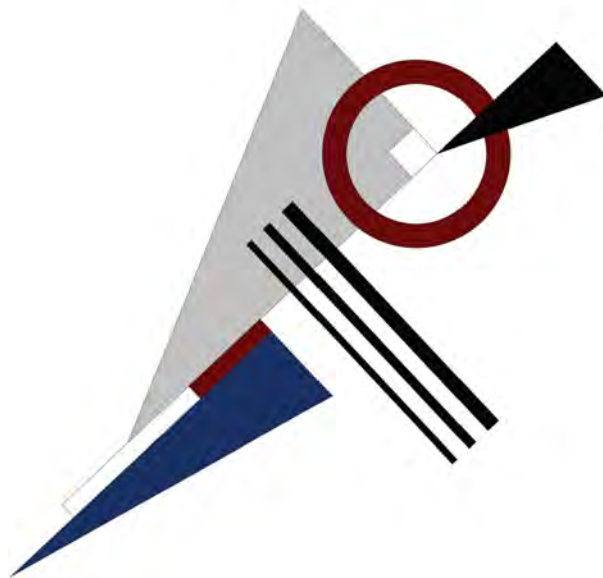

The St. Petersburg designer Kuzma Kuznetsov has developed futuristic style ceiling chandelier with bionic avant-garde form and modern mandala design inspired by Zaha Hadid architecture. Know-how of this design is frameless soft plafonds.

This chandelier will perfectly decorate private spaces such as: child rooms, playrooms, teen rooms, contemporary design interiors, loft spaces, hallways, corridors, staircases etc. Also this light ideally suitable for public spaces such as: restaurants, clubs, cafe, foodcourts, showrooms, art-spaces, co-workings, office receptions, meeting rooms, hotels lobby, boutiques etc.

This lighting will bring lightness and movement to every space by extravagant form and laconic color.
