

Urban Tree Lounge: Recharge & Reflect

3M Science. Applied to Life.™

Science is changing the world every day, solving the toughest problems, and shaping the future. The technology, talent and culture of 3M brings science forward into everyday life, sparking innovative breakthroughs. This is all made possible by a creative culture that thrives on a spirit of curiosity, and a passion for discovery.

But we don't just invent, we create. We get inspired to translate insights into thoughtful solutions and meaningful experiences with one purpose: make life better. Through **3M Design**, those solutions, experiences and connections come to life, driven by something we call collaborative creativity.

Purpose-Driven Collaboration

As an innovation company focused on making progress possible, 3M works with partners across many markets, from manufacturing to health care to electronics, energy, consumer products and so much more. In the design space, this creative collaboration is inspired by partners who share values that unite quality with purpose to create design solutions that are beautiful, functional, and help improve people's lives everywhere.

That's why we're excited to collaborate with **Stefano Boeri Architetti**, a recognized leader in contemporary, eco-friendly architecture and urbanism. Our conversation began with an interest in designing an experience that integrates 3M materials with collaborative creativity to welcome visitors to Milan and encourage reflection on new opportunities to design thoughtful solutions for tomorrow.

Marvelous Milan

As one of the most vibrant and creative cities in the world, Milan is an ideal location for 3M Design and Stefano Boeri Architetti to celebrate all that is possible in the world of design, architecture and innovation.

Creative professionals visiting this week will gather new creative ideas, expand professional networks, learn about new trends, or just seek inspiration...and we're delighted to provide a stop along the way. We look forward to seeing you at our Urban Tree Lounge, where you can relax, recharge, and reflect.
