SAYPE ARTIST

Saype was born in 1989 in Belfort (FR), he currently lives in Bulle (CH).

Passionate about philosophy and thought that we could call “existential”, his art explores contemporary challenges of his generation.

His art is a way for Saype to share his vision of the world and invites us to question our spirit, our place on Earth and in our society. Always through the prism of poetry, his artworks invite us to be more optimistic.

“Our lives and acts are traces that we leave behind in this world, we must make them meaningful”

IMPACTS MENTALITIES WITHOUT
IMPACTING NATURE

An environmentally friendly painting

Made by the artist and his team, the paint is 100% biodegradable and made from natural materials. In his approach, the artist has the will to minimize its impact on the soil. The fresco fades to the rhythm of the regrowth of the grass before disappearing completely and naturally.

**ONE OF THE MOST INFLUENTIAL
ARTISTS FOR THE YEAR 2019**

Recently, Saype joined one of the world's most exclusive clubs for young entrepreneurs and thought leaders. The artist is one of 30 cultural personalities under 30, the most influential in 2019, according to the Forbes ranking.

BEYOND WALLS PROJECT

**FOLLOW ONE OF
THE BIGGEST ARTISTIC
PROJECTS EVER MADE !**

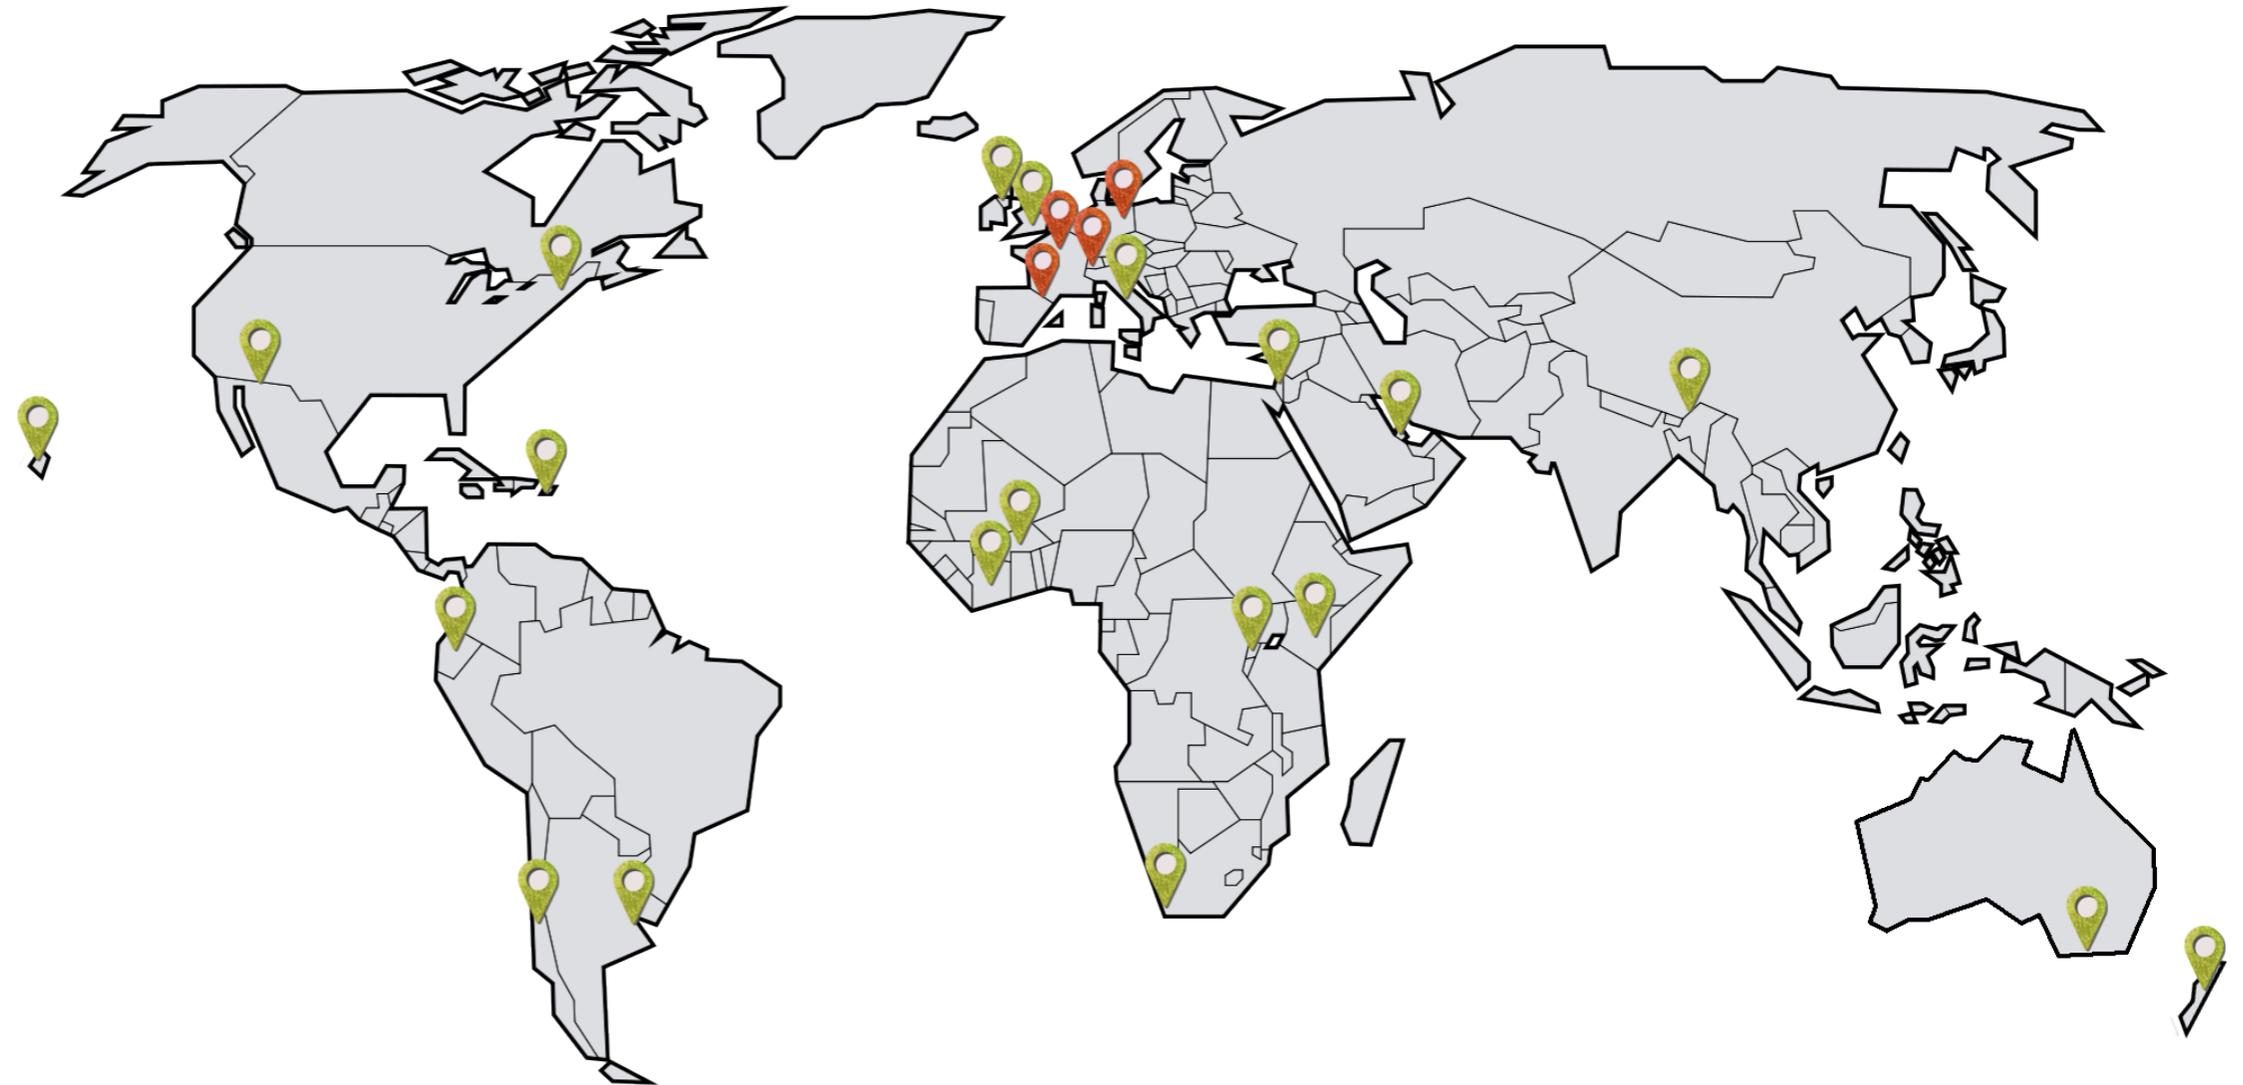

The artist wishes to open his message to the greatest number. His new project will be seen in the world's largest capitals: Paris, London, Geneva, Buenos Aires, Cape Town ... with a message of union, in this increasingly polarized world.

The hand is the powerful symbol of human exchange. Elderly, young, women, men, whites, blacks, etc ... All are holding hands to form a huge human chain, a sign of mutual aid ...

MORE THAN AN ARTWORK, IT IS A MESSAGE OF OPTIMISM

« Beyond Walls » project shows **interlaced hands**, reaching out, shaking and united in a common effort beyond all walls separating humans and enclosing them in mental or geographical spaces.

Thus, the **walls erected in mentalities** become fictive partitions, wiped out by artistic imagination. It merely opens a breach in the real walls, the ones built by humanity within and against itself.

In this specific artwork, the symbolic wall crossing does not eliminate the singularity of each of the hands: they **all tell a life story** and are subtly marked with multiple backgrounds (social, geographical, ethnical, etc.). Beyond walls and with this universal farandole, every human individuality is granted rights of way and civil ones. The universality conveyed in this project is one of plural humanity.

“Beyond Walls” will cross borders in order to carry out this universal message and make it travel from city to city, all along this immense human chain.

THE PROJECT IN BERLIN

WHY BERLIN ?

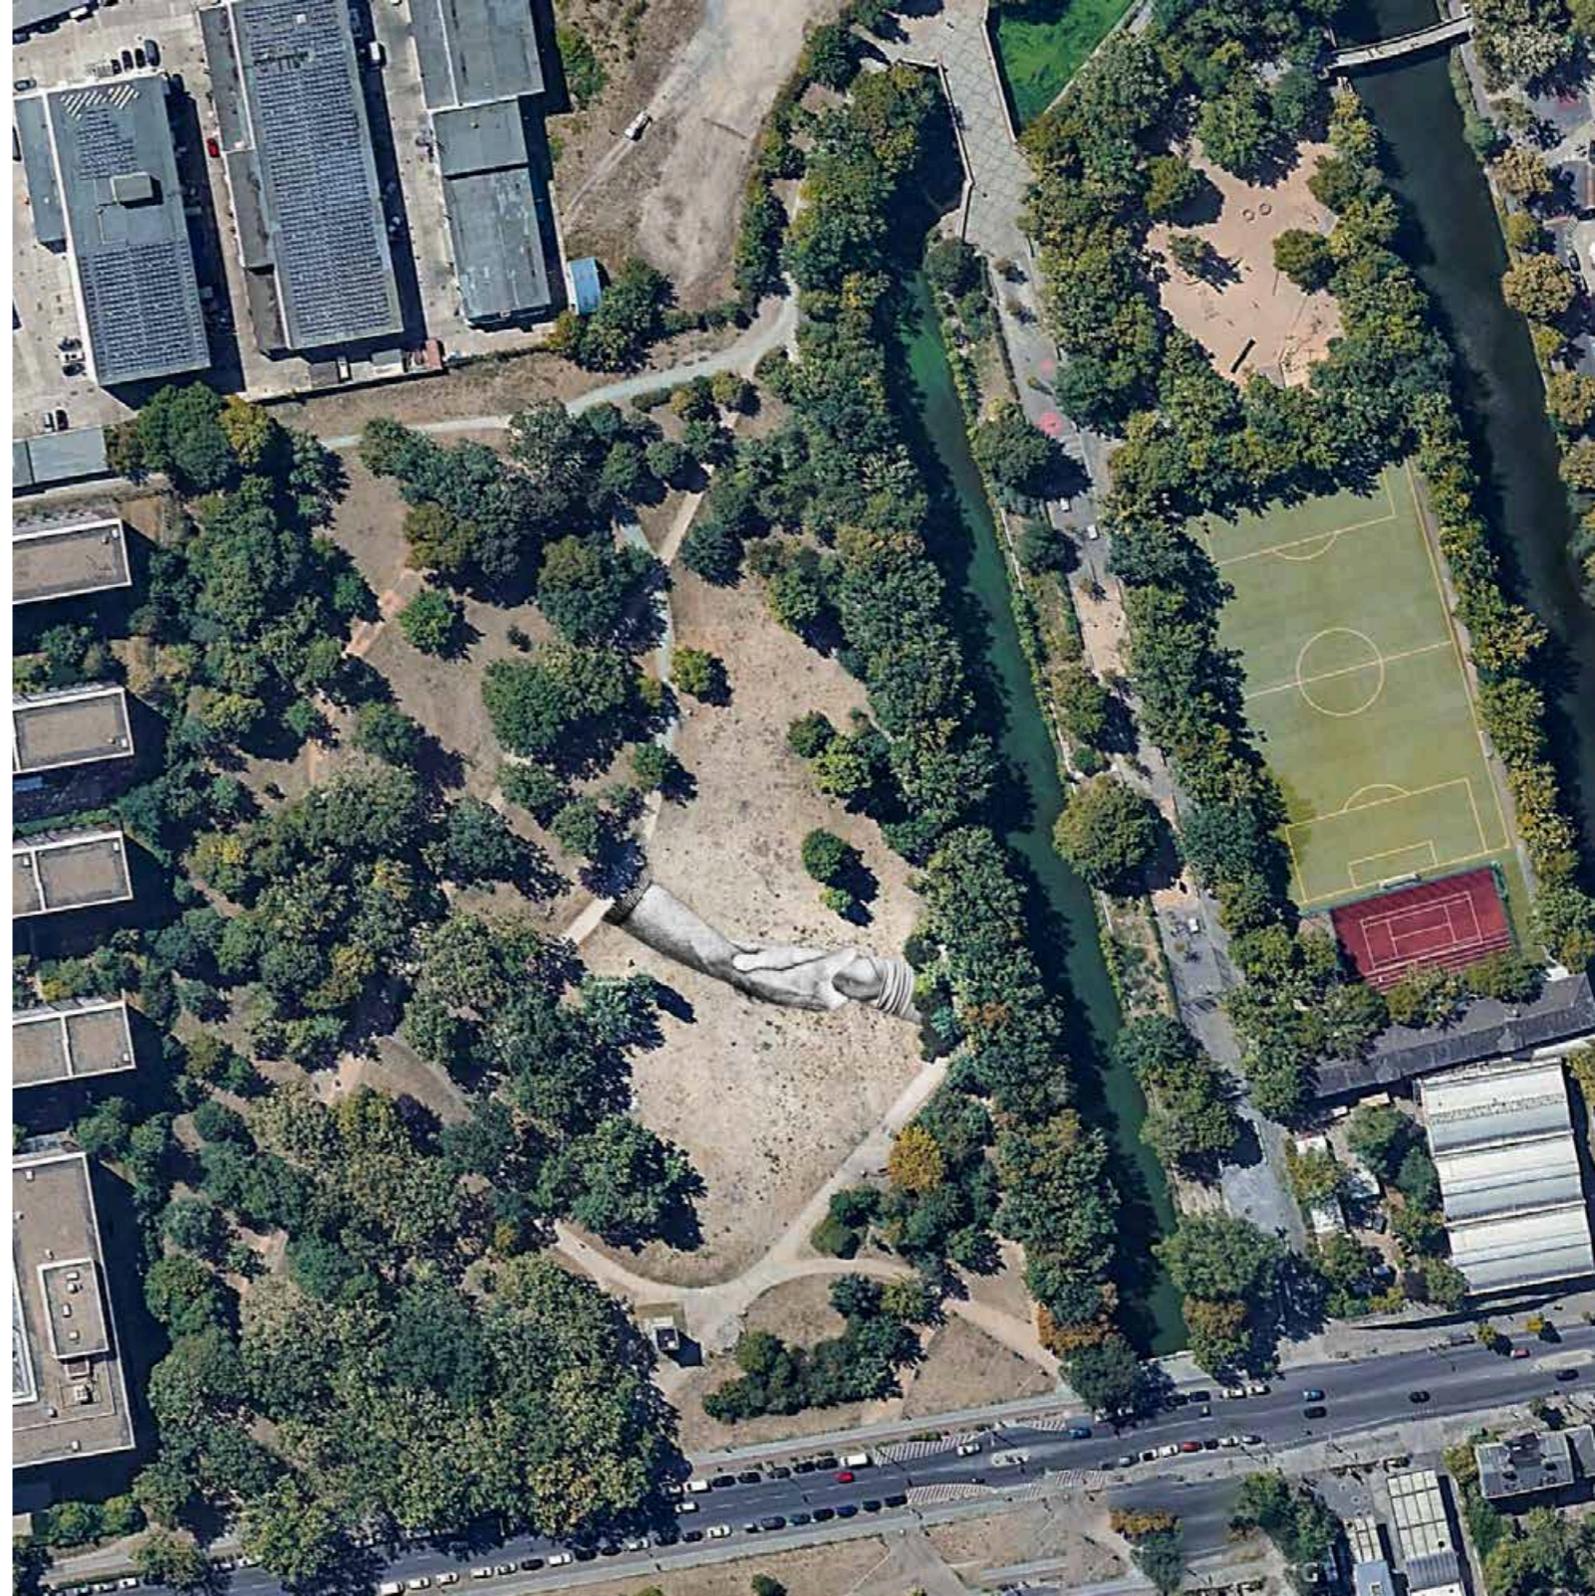

As strong history city, Berlin has made a notable effort not to forget its history and make it a living force of its culture. Since then the city has become an example of a cosmopolitan city with a strong diversity of culture present in its enclosure. At the time of the 30th anniversary of the fall of the Berlin Wall, the "Beyond Walls Project" would bring a strong image of union between people and an image of a unification world.

WHERE IN BERLIN ?

Two places will be invested by the artist to celebrate the 30th anniversary of the fall of the wall:

- Treptower Park, right next to Sommerblumengarten (see next page)
- Wachturm Schlesischer Busch, where the wall once passed (see on the right page)

The artist and his team will be on site between October 31st and November 5th to realize these two frescoes.
