

Drawer Table with LED illuminated handles

Drawer Table with LED illuminated handles

Stylish piece of furniture in industrial oak / graphite effect with black metal legs and illuminated LED handles.

Materials: Paper Veneer, Particle Board, MDF, Metal

Drawers: Soft Close system

Dimensions: W48 x D41 x H45cm (delivered completely assembled)

Weight: 16kg

LED handles in structured pearl black surface and cold white LED light color

- Low energy consumption by using high effective LEDs
- Very low operating temperature and No buzzing sound
- Innovative power supply system for movable furniture parts
- Remote control and dimming function

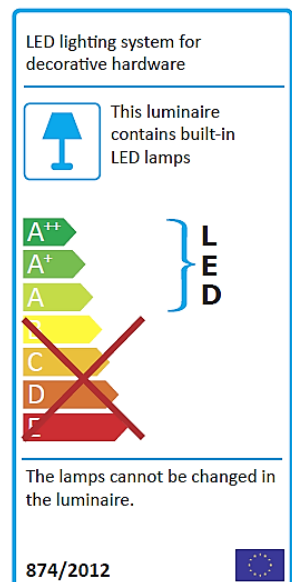

Technical data:

Primary Power: ~100-240V/ ~50/60Hz

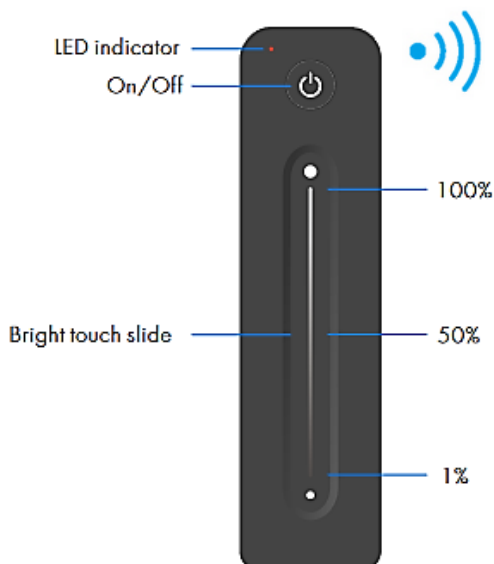

Secondary Power: 12V DC / 12W

Class: Transformer IP 20, class II

Light source: LED, non exchangeable

Operation control by touch slide RF Remote Controller with dimming function.

- Sensitive brightness adjustment touch slide
- Operate with LED indicator light

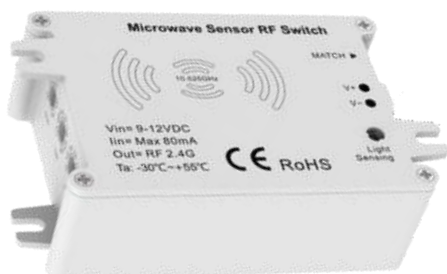

On demand are available also optional operation controls:

Wi-fi relay RF Remote Controller

- APP dimming and control
- Available on Android and IOS software

Motion detection sensor RF Switch

- Active microwave motion detectors
- Motion can be detected through plastic, glass and thin non-metal materials
- Wide detection area, range up to 10 m
