ABOUT DESIGNING A COMMERCIAL BUILDING...

Commercial buildings are buildings that are used for business purposes, such as office buildings, shopping malls, restaurants, and hotels. They are designed to attract customers and provide a space for them to shop, eat, or stay. Commercial buildings can be found in cities and towns all over the world and can range in size from small to large.

ABOUT EXHIBITION...

An exhibition is a space for showing people information, art, or products. It can be a temporary or permanent display, and it can be open to the public or private. Exhibitions can be found in museums, galleries, trade shows, and other places. They can be educational, entertaining, or both. Exhibitions can be a great way to learn about new things, see beautiful art, or find out about the latest products and services.

ABOUT PRESENTATION...

A presentation is a way to share information with an audience. It can be used to inform, persuade, or entertain. Presentations can be delivered in person or online, and they can use a variety of visual aids, such as slides, videos, and handouts. The goal of a presentation is to communicate your message clearly and effectively.
