Stainless Steel Mosaics

THE INOX IN COLOR®

INTRODUCTION

Just like the traditional tiles and mosaics but now in stainless steel.
Easy to apply and to combine with other materials. A new option for your most fashionable projects and singular designs.

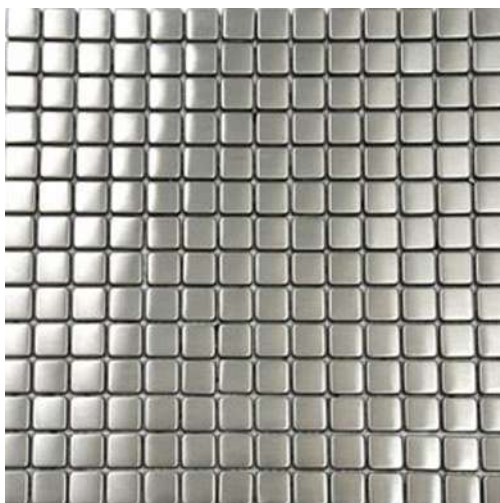

Our ready-made stainless steel tiles and mosaics allow the same application system as any other traditional material because of their ceramic base. Available in different sizes and in a large range of colors and finishes. The Inox in Color® offers stainless steel tiles and mosaics with special finishings. Materials that will let you personalise and distinguish your projects providing them with the special touch and personality of stainless steel. Our wide range allows you to choose the most suitable finishing for each application that you project with stainless steel tiles and mosaics by The Inox in Color®. Our paving materials can be installed both floors and in vertical claddings, walls... both indoor and outdoor. Stainless Steel tiles and mosaics also fulfill the hardest sanitary requirements in environments like Health Centers, Food Industry, Chemical Industry...
