

INFINITY LUXURY

About us

We just love to be **different**. For this reason, with a lot of **love** and **passion** we are creating **unique outdoor showers**.

With their **minimalistic design** and **convenient size**, they can be installed anywhere, some of them both **outdoors** and **indoors**.

The **goal** of our company is providing the world with new products through **innovative ideas**, **modern design** and **high quality materials**.

Thank you for trusting us! Your satisfaction is our **priority**.

Welcome to the world of our products

Why Infinity Luxury showers?

If you are looking for a **long term** solution then you found it.

Using only **quality** materials like natural stone, ceramics and HPL, our **outdoor showers** are made to last for a long period. The construction is **resistant** to all **external** conditions and it can be installed everywhere.

When resolving all the technical features, we focused on **design** with whom we **achieved** the form of the reversed letter „L“.

Our **showers** are designed to create an **special** atmosphere by giving your **environment** a **different**, modern look.

Design is so simple,
that's why it's so
complicated.

Design

Keep it simple.

Today's trend in architecture are **straight lines** and **minimalistic design** with lots of white and gray.

After a few ideas regarding the design we decided that our **showers** should be adjusted accordingly.

But with a lot of respect to **traditional buildings** we also created a model with **rustic details**.

With simple lines and designed faucet they emphasize with their **uniqueness** and **simplicity** giving a **royal touch** to pool or beach environment.

They are made to be **different**.

Freedom
is
realizing
you have a
choice.

Design your own shower

Feel free.

Using **stone**, **ceramics** or **HPL** as our main materials you have the option of selecting a **sample** from which you would like us to make your **shower** perfect for your pool or beach.

After choosing your type of sample you can also choose **processing** method.

The **final touch** is given by **engraving** your **logo/name** on the front side of the shower.

If you have any other **ideas** feel free to express them. We will do our best to **achieve** them.

The world of choices

Discover the world of HPL.

Light in nature creates the
movement of colors..

Ambient illumination

Light it up.

Adding **ambient illumination** to showers simple and balanced design brings up a **touch of modern aesthetic** to outdoor spaces.

Not only that will **emphasize** the **shower** it will also point out your **logo/name**.

Usually the lighting is located at the **top** of the **front side**. In some occasions with **water jet** technology can be located **inside** of the showers.

Water is the driving force of
all nature.

ECO TECH shower head

Save water. Save life.

Using **ECO TECH** shower head our smart showers increase **water saving** for **50%***

It is made from stainless steel and has **EASY CLEAN** nozzles for easy maintenance.

*For example, regular shpwer head consume 6 liters of water when showering lasts 30 seconds. Using **ECO TECH** smart system water consumption is reduced for 3 liters.
