

INFINITY LUXURY

www.infinityluxuryofficial.com

About us

We just love to be **different**. For this reason, with a lot of **love** and **passion** we are creating **unique outdoor showers**.

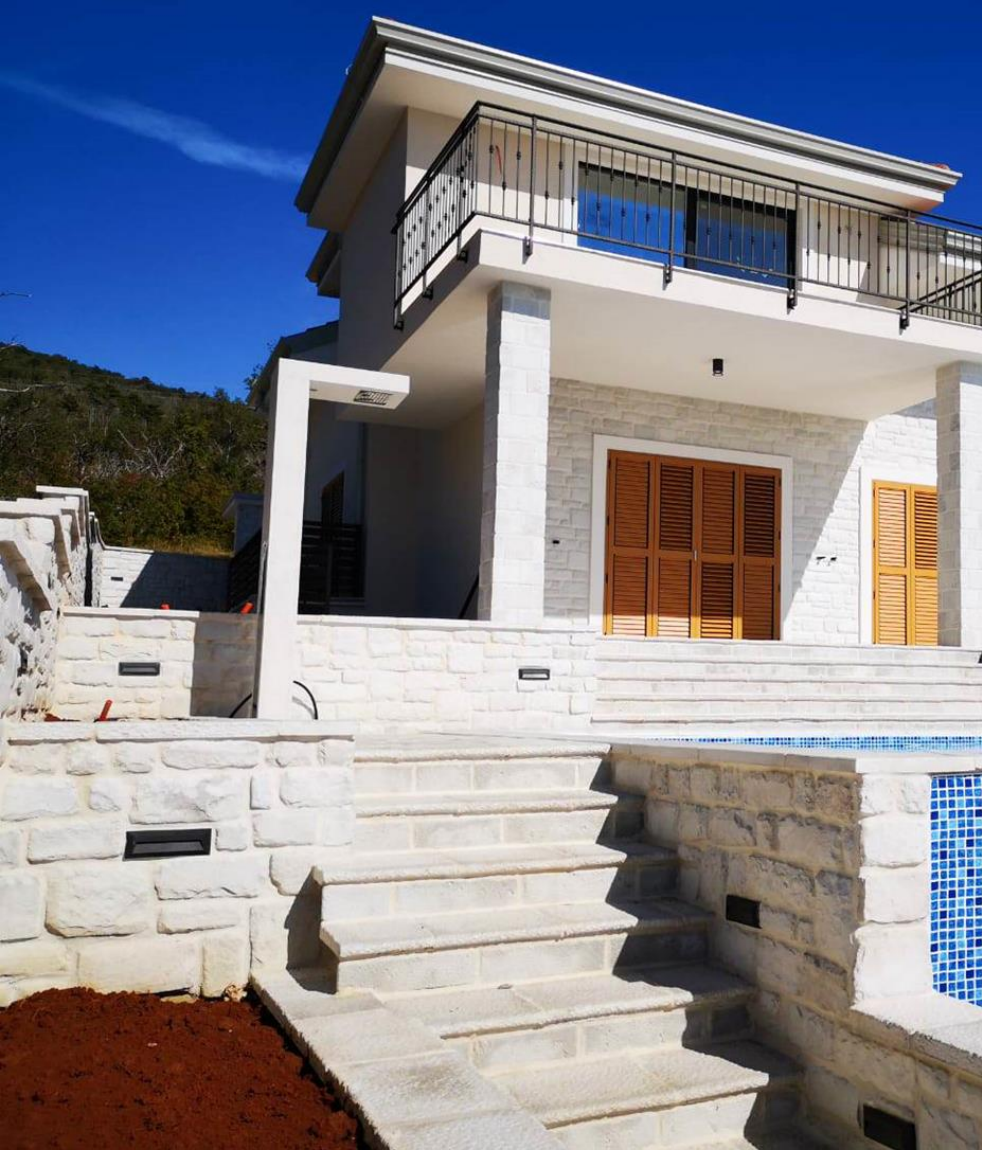

With their **minimalistic design** and **convenient size**, they can be installed anywhere, some of them both **outdoors** and **indoors**.

The **goal** of our company is providing the world with new products through **innovative** ideas, **modern** design and high quality **materials**.

Thank you for trusting us! Your satisfaction is our **priority**.

Welcome to the world of our products!

Why Infinity Luxury showers?

If you are looking for a **long term** solution than you found it.

Using only **quality** materials like natural stone and HPL, our **outdoor showers** are made to last for a long period. The construction is **resistant** to all **external** conditions and it can be installed everywhere.

It is well known that global **environment** is looking for concrete solutions toward water saving and using **renewable energies**.

So we have developed a system that not only **reduces** all unnecessary water consumption but also **produces** its own energy.

When resolving all the technical features, we focused on **design**.

Design is so **simple**,
that's why it's so
complicated.

Design

Keep it simple.

Today's trend in architecture are **straight lines** and **minimalistic design** with a lot of white and gray.

After a few ideas regarding the design we decided that our **showers** should be adjusted accordingly.

But with a lot of respect to **traditional buildings** we also created a model with **rustic details**.

With simple lines and designed faucet they emphasize with their **uniqueness** and **simplicity** giving a **royal touch** to pool or beach environment.

They are made to be **different**.

Freedom is realizing you
have a **choice**.

Design your own shower

Feel free.

Using **stone** or **HPL** as our main materials you have the option of selecting a **sample** from which you would like us to make your **shower** perfect for your pool or beach.

After choosing your type of sample you can also choose **processing** method.

The **final touch** is given by **engraving** your **logo/name** on the front side of the shower.

If you have any other **ideas** feel free to express them. We will do our best to **achieve** them.

Light in **nature** creates
the movement of **colors**.

A photograph of a balcony at dusk. The balcony has a red wall and a black metal railing. In the background, there is a view of a bay and a town. A glowing sign on the right side of the balcony reads 'MARID'.

Ambient illumination

Light it up.

Adding **ambient illumination** to showers simple and balanced design brings up a **touch of modern aesthetic** to outdoor spaces.

Not only that will **emphasize the shower** it will also point out your **logo/name**.

Usually the lighting is located at the **top of the front side**. In some occasions with **water jet technology** can be located **inside** of the showers.

Our showers just wanna
have **SUN**.

Renewable energy

Enjoy the sun.

Some models of our showers are **100% solar powered**, and they don't require any additional power supply.

Total power of our solar system is 40W.

**Water is a priceless treasure
so save it with pleasure.**

Motion sensor

Every drop counts.

It's well known that sources of drinking water are **limited**, so we developed a system with **motion sensor** which detects a movement in a **second** and shuts down the running water.

In this way all the unnecessary **water** consumption is **reduced**.

Sensor is **programmed** to recognize only **human presence**.

There is something cool
about **stone**.

Marbella

Surrounded by natural beauties **Marbella** has a **special glow**.

It's the **first** outdoor **stone** shower combined with **modern** technologies.

It's made of stone originally from **Croatia**, city „Kanfanar“.

If it's **polished** it emphasizes the **effect** of the stone „**Kanfanar**“ and if it's **sandblasted**, it emphasizes the **nature** of the stone „**Kanfanar**“.

Marbella can be placed to both **modern** and **rustic** buildings.

Dimensions:
231 cm x 48 cm x 19 cm

Weight:
400 kg

Luxury is a state of mind

ALPHA LUXE GROUP
LUXURY IN ALL THINGS
