The perfect trip

The concept of a boutique hotel

You are a perfectionist. You love when everything is well-thought-out. You prefer style and harmony wherever you go. Are you ready to discover your ideal hotel?

The room in a trendy boutique hotel, which will give you fantastic impressions and bright mood every day. The room is divided into 3 zones - a recreation area, a freshness area and a relaxation area. They are all aged in the same style, but each one is unique in character and filled with carefully selected designer interior furniture and decor.

A unique design is highlighted by colors and graphics. The core of the color composition is muffled colors of deep blue-green, invigorating orange-red and delicate peach combined with contrasting black and white stripes. Clean lines and spheres refer to Bauhaus school and Neo Memphis ideas in a fresh and modern way.

Welcome to our hotel!
