PAVILION OF DREAMS

The Olivetti Museum Captured by Gabriele Bortoluzzi

Anniversary Team

Located in the **S. Marco Square** in **Venice**, the Olivetti shop was designed back in **1985** by architect **Carlo Scarpa** under the assignment of **Adriano Olivetti**. Going beyond the reduced dimensions of the space, placed in between of square's old Procuratie, Scarpa creates a unique work of space and transparency. Thanks to the precise drawing ability of Carlo Scarpa, here modernity and Venitian tradition coexists in great harmony, giving birth to one of the most pristine masterpieces of contemporary architecture.
