Office Haratori, Zürich – Office Winhov, Amsterdam

The new Bucherer flagship store on Zurich's Bahnhofstrasse is a project by Office Haratori from Zurich, together with Office Winhov from Amsterdam. Office Haratori and Office Winhov have been in collaboration between Switzerland and the Netherlands since 2007. In Zurich, they are responsible for, amongst others, 270 apartments at the Freilager Albisrieden Development (Südhof) and the facade of the Zölly residential tower in City West (Silberner Hase 14, Betonpreis 17). Altogether more modest and delicate, their project Haratori Office Mathon received the Prix Lignum 18. Office Winhov have been awarded for their oeuvre 2016, not least for the jointly designed 14-storey prefabricated student tower in Eindhoven.
