Embrace  
the Perfect  
Sound  
Experience

<O> HORIZON 47

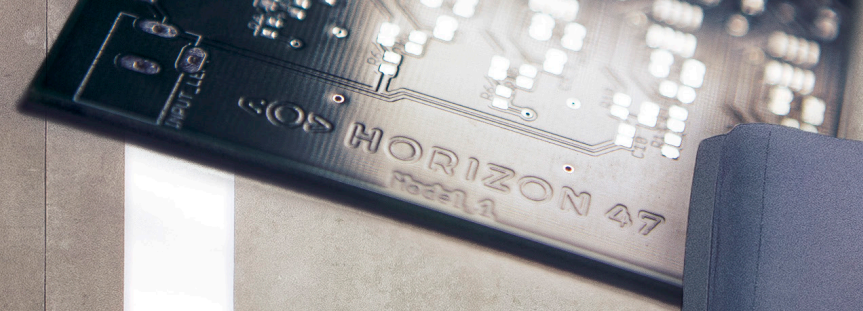

## What is Moon?

Moon appears to be a normal armchair, albeit with an amazing design and luxurious finishes. But it's far more than that! Moon conceals an advanced electroacoustic system specifically developed to create a unique sound experience.

## Shift your ambiances to another level.

Moon is optimised to create an incomparable symbiosis between sound and listener. Using the internal structure as a speaker, you can subtly bring this magnificent experience to your surroundings. Moon is an incredible and exclusive product for lounge areas. In your home or business, offer your clients a unique experience.

## A revolutionary idea comes alive.

H47 launched groundbreaking technological approach to sound system integration in furniture. The acoustic system was meticulously studied by an expert R&D team, carefully optimizing each sound reproduction locus, positioned to perfectly sync and achieve an optimized frequency response. The mid frequencies work using revolutionary technology that takes advantage of the actual structure of the chair to act as a speaker. Incorporated Bluetooth technology allows you to connect Moon to your daily devices.

## Designed to impress.

All the lines and shapes of Moon were designed through passionate precision. Crafted from natural and state-of-the-art materials. Around a solid wooden core we apply a combination of revolutionary finishes such as fiberglass, faux velvet paint and high quality fabrics. Moon blends perfectly into any ambience.
