

SOMNIUM

MARBLE FURNITURE COLLECTION

GIOVANNOZZI MARMI

Dining Table / Maragnon

SOMNIUM

"SOMNIUM" (LATIN FOR "DREAM") IS A DESIGN FURNITURE COLLECTION PRODUCED BY "GIOVANNOZZI MARMI" AND DESIGNED BY INTERIOR DESIGNER ASHLEY GADEOVA.

THIS COLLECTION IS CHARACTERIZED BY THE USE OF PRECIOUS AND COLORED MARBLES WITH WHICH STRONG CHROMATIC CONTRASTS ARE CREATED. YOU CAN ALSO SEE UNUSUAL LINES, CURVES, IRREGULAR SHAPES, WITHOUT LOSING THE ELEGANCE OF THE LINES BUT GIVING, INSTEAD, A MAGICAL TOUCH THANKS TO THE COLORS OF THESE PRECIOUS MARBLES.

DESIGNED TO GIVE A UNIQUE TOUCH TO A MODERN, ECLECTIC BUT ALSO CLASSIC ENVIRONMENT, THIS COLLECTION ADAPTS PERFECTLY TO VARIOUS ENVIRONMENTS, THANKS, ESPECIALLY TO THE POSSIBILITY OF CHOOSING FROM A WIDE VARIETY OF MARBLE COLORS.

THE COLLECTION HAS AS ITS LIFEblood AND CHARACTERIZING FANTASY, JOY, PERSONALITY AND EXCLUSIVITY. THANKS, IN FACT, TO THE UNIQUENESS THAT CHARACTERIZES EVERY SINGLE MARBLE SLAB, INEVITABLY DIFFERENT FROM ALL THE OTHERS, EACH PIECE OF FURNITURE BECOMES A REAL UNIQUE PIECE.

Maragnon Table

DINING TABLE

"Somnium" is a collection that speaks of femininity, sweetness, and forms that distinguish it and of which the "Maragnon" table is perhaps the highest expression.

Its lines, so curved and sinuous, find inspiration in the cashew, whose particular shape was wanted to make evident from the first glance.

Seeing the table from above, in fact, you can see the profile lines of this fruit which are represented by the legs, specially made with colors in contrast with the top, while the latter always recalls the cashew but seen from the front.

Here then is that Maragnon, for the idea of which it speaks and thanks to its realization with precious marbles and contrasting colors, represents a unique object of its kind.

Candy Table

DINING TABLE

The top is oval in shape and the asymmetrical legs consist of a wide oval piece at one end and three narrower pieces, also oval, at the other. In this image you can see the table seen from above and you can see how, even in the structural irregularity of the legs, everything is arranged in a perfectly harmonious way.

Pear Table

DINING TABLE, COFFEE TABLE AND SIDE TABLE
COLLECTION

The shape of this table is asymmetrical: in fact, one side is wider than the other. The top recalls the shape of a pear that has rounded off and this same shape is applied to the brass ring that joins the structure of the legs. The legs also protrude and you can see the shape from above: two semicircles that follow, hinting at, the shape of the top.

A Dream Collection

WHEN THE ELEGANCE
OF MARBLE AND THE
ORIGINALITY OF
SHAPES AND COLORS
CREATE A UNIQUE AND
PRECIOUS OBJECT.

THE COLLECTION IS
INSPIRED BY THE
NATURAL FEMININE
ELEGANCE.

PASTEL COLORS,
SINUOUS SHAPES, AND
CURVED LINES ARE THE
PROTAGONIST.

Rullo

COFFEE TABLE

These coffee tables and dining tables are composed of several cylinders that rotate around a metal base, and each one is settled in a very specific position thanks to which each cylinder follows and continues the natural veins of the marble.

Ferwel

SIDE TABLES

They look like jewelry, in fact that's the name of this piece composed of three rounded marble blocks supported by a metal frame.

Ninfea

SIDE & COFFEE TABLES

As the name indicates, this piece of furniture is inspired by the leaves of the water lily and the top represents the water on which the leaf rests.

Marshmallow

SIDE TABLES

This coffee table is reminding of the famous marshmallows and consists of three pieces that look like two, one of which is broken in half, all placed around a metal frame.

Sweet Cake

COFFEE TABLE

The coffee table is made of four different layers of marble. Here you can play with the combinations that you can create with this material: you can combine contrasting colors but also colors that are similar to each other.

Makaron

SIDE & COFFEE TABLES

These side tables are reminiscent of sweet macarons. Here the rule is to play with color contrast: different colors linked by a brass frame.

Pear

SIDE & COFFEE TABLES

These products are the "coffee table and side tables" version of the already presented "pear dining table" (The shape of this table is asymmetrical, one side wider than the other, the top resembles the shape of a pear that has rounded off, and this same shape is applied to the brass ring that joins the leg structure, the legs also protrude and you can see the shape from above, two semicircles with the shape of the top).

Pieces Lamps

TABLE LAMPS & FLOOR LAMPS

In this line the designer has imagined the stones and beads for jewelry that slip into the metal structure.

Thanks to this mechanism it is possible to compose marble lamps with different colors in order to satisfy every taste. The line is composed of lamps of three heights: a table lamp and two floor lamps of different heights.
