

EXTERIOR AND PLANNING ARCHITECTURE

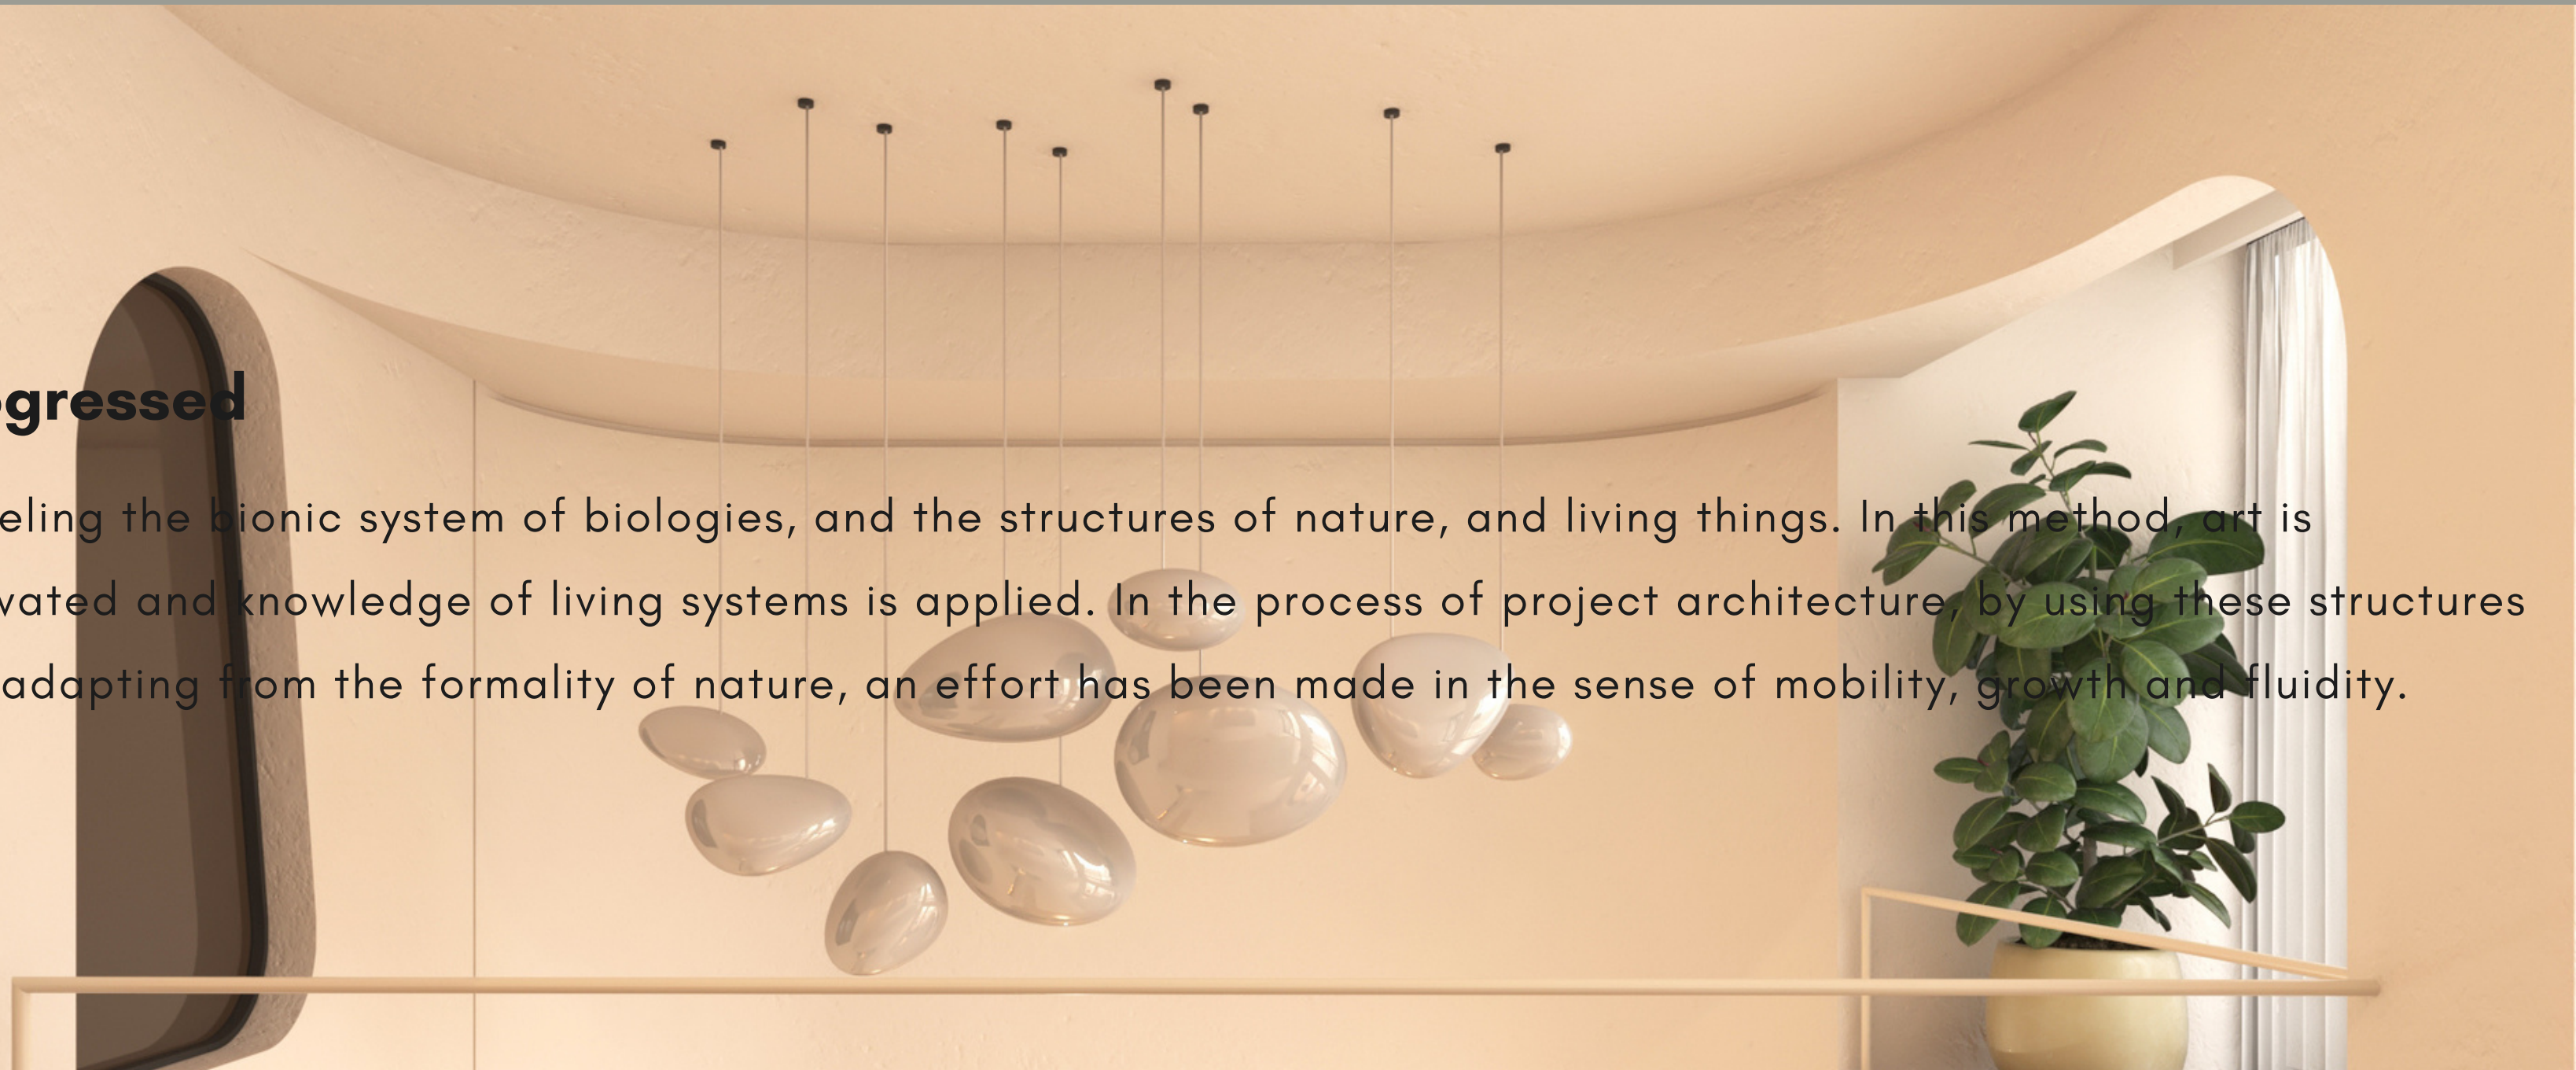

ARCHITECTURE DESIGN

PRESENTATION BY MOBIN BAHADORANI

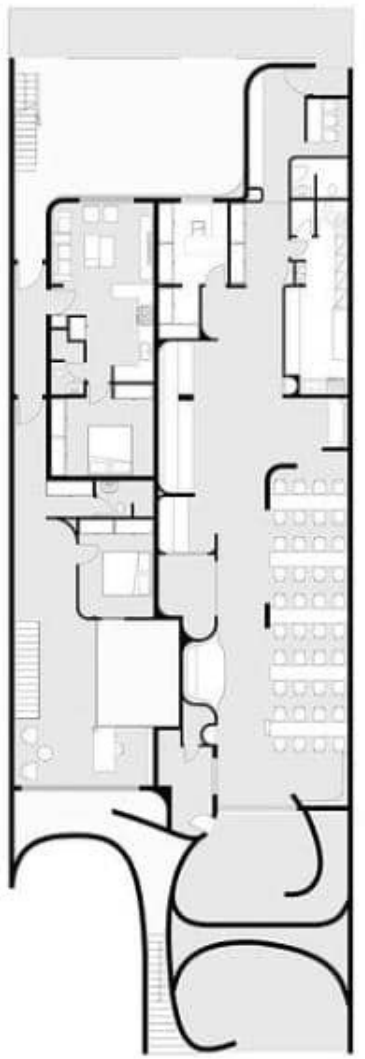

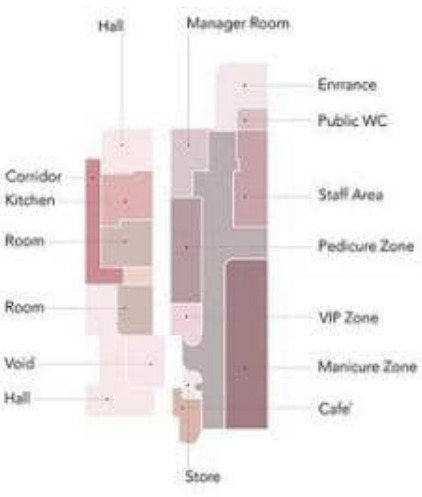

BOHEM PROGRESSED

progressed

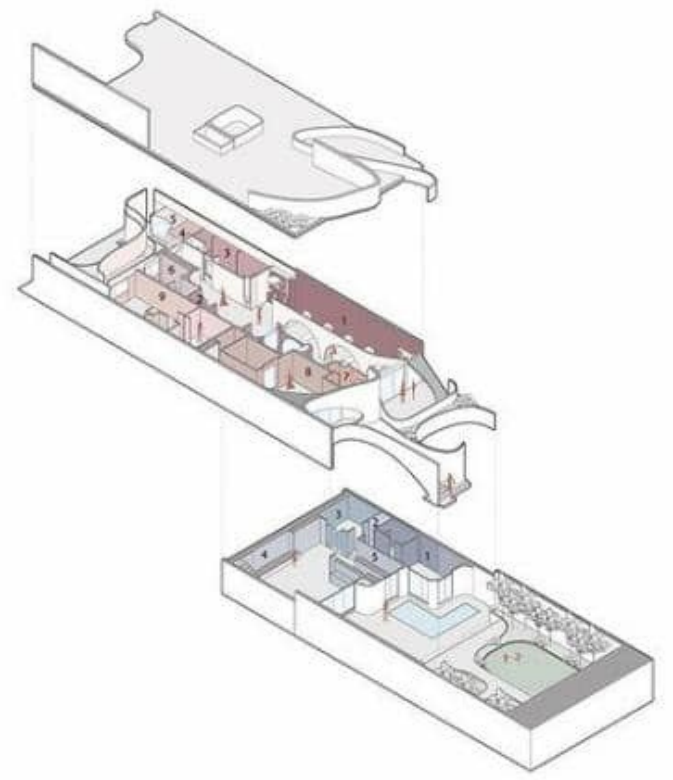

Modeling the bionic system of biologies, and the structures of nature, and living things. In this method, art is innovated and knowledge of living systems is applied. In the process of project architecture, by using these structures and adapting from the formality of nature, an effort has been made in the sense of mobility, growth and fluidity.

GROUND FLOOR PLAN

PHYSICAL PROGRAM

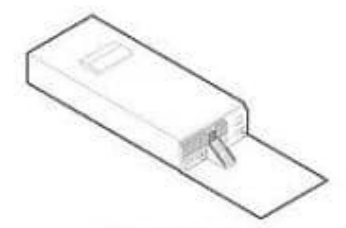

GROUND FLOOR

- 1 Manicure zone
- 2 Pedicure zone
- 3 Staff zone
- 4 Guest wc
- 5 Wating
- 6 Manager room
- 7 Cafe
- 8 Bedroom
- 9 Hall

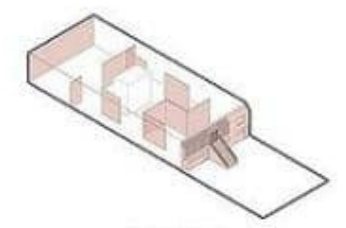

UNDER GROUND FLOOR

- 1 Mastr Bedroom
- 2 WC
- 3 Storage
- 4 Hall
- 5 Kitchen

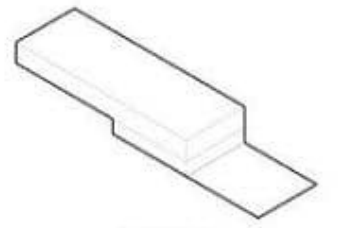

PROCESS DESIGN

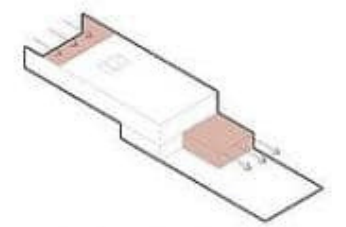

Before the renovation, at the site, there used to be a school, which was located at the northern part of the site.

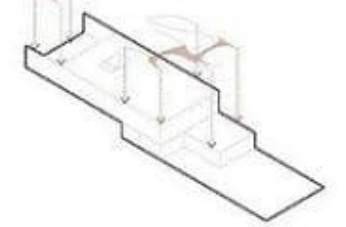

It has been decided to eliminate the northern, southern, and interior walls. But, the void is still remained.

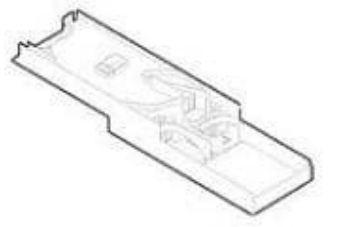

As the eastern and western walls are being remained at their previous spot the new building is being constructed again at the northern part of the site.

In order to provide more light and also more green spaces, some additions and subtractions were necessary, which is provided as the diagram illustrates.

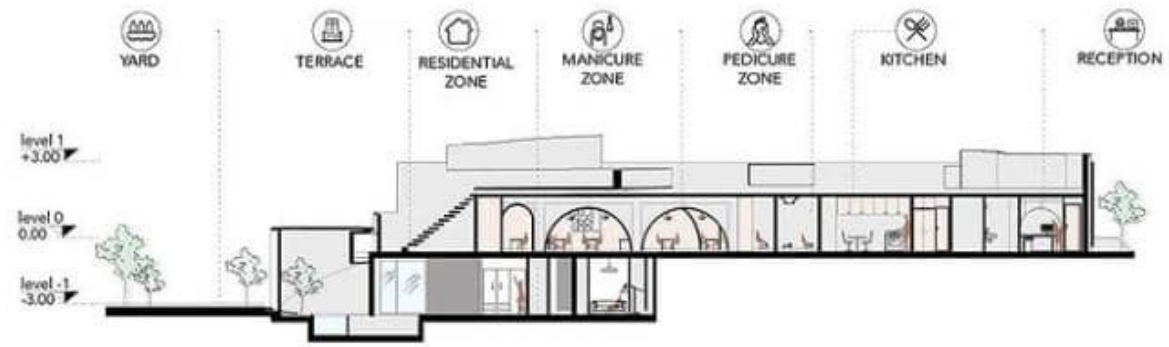

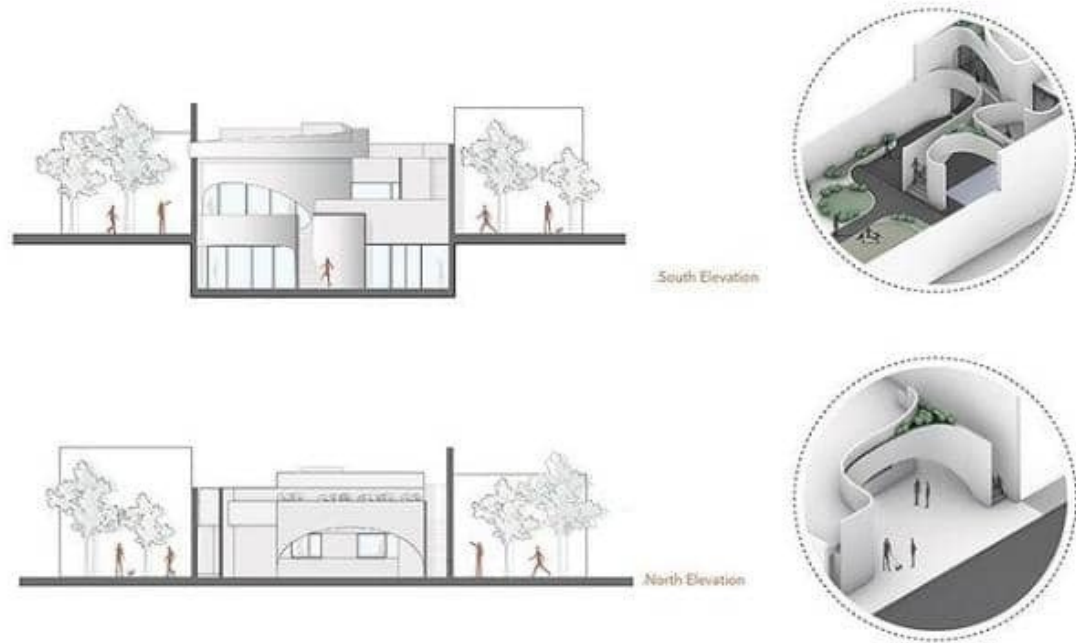

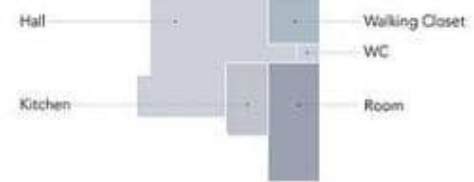

To get to the considered elevation some changes have been made to both the plan and elevation.

By doing all the mentioned process we have reached a final mass.
