Opening Date: May 2007

Hotel Location: Praktik Garden is located right in the heart of Barcelona, surrounded by designer restaurants, tapas bars, and by international and local shops and businesses. The hotel is a few minutes' walk away from impressive monuments and places to visit such as: La Pedrera, Casa Batlló, Paseo de Gracia, Las Ramblas or Plaza Catalunya, the centre of Barcelona.

The Concept: Praktik Garden is a low cost contemporary design hotel in the centre of Barcelona. We lead our guests to a new world of *low cost experience* by providing the best and practical service and facility.

Architecture & Design: The interior design of Praktik Garden is the work of Lázaro Rosa-Violán of Contemporain Studio, whose work includes the design of the interiors for the Pulitzer Hotel (Barcelona and Rome), and other well-known establishments in Barcelona. The designer has combined the Mediterranean atmosphere with the original elements of this historic building, typical of Barcelona's Eixample district. This can be seen in our magnificent terrace in the style of the patios of the blocks in the area or in the refurbished rooms.

Surroundings: Barcelona's extensive Eixample district brings together a large number of modernist buildings of great architectural value. However, it is the central part which showcases most of the buildings designed in this style. Known as the *Quadrat d'Or* (Golden Square), it is the place where Barcelona's moneyed classes came to live in the flats designed by the leading architects of the day, such as Gaudí.

Accommodation: Praktik Garden has 43 design rooms, which combine the most chic trends with the spirit of the Barcelona Modernist style at a low cost. The rooms have spacious beds with huge comfortable pillows. The individual bathrooms feature an enormous shower and soft white cotton towels.

The terraces with exterior views are toward the main streets in the centre of Barcelona, or a spacious and quiet patio, typical internal space between the blocks in the Eixample district.
