viale Duca d'Aosta 30 - 25121, Brescia, ITALIA  
T +39.030.6188261 F +39.030.363955  
nicola\_martinoli@yahoo.it

### COLLABORATORS:

Arch. Erica Beluffi, Arch. Martina Pavani, Arch. Daniele Quadri, Ing. Marco Venosta (project designers)

### ECONOMIST: C2Bi

Project manager: J. Marc Haeberle - Construction site manager: Pierre Fichter  
20, avenue du Neuhof - BP 90057  
67020 STRASBOURG cedex 1  
T 03 88 43 04 80 F 03 88 43 04 79  
c2bi@c2bi.fr

### STRUCTURE: SIB ETUDES (STRASBOURG)

Project manager: Stéphane Thomas Ingénieur  
Sede - 50 rue des Vignes 67202 WOLFISHEIM  
T 03 88 78 15 14 F 03 88 78 16 60  
strasbourg@sib-etudes.fr

### PLUMBING: MARCHAL P. INGÉNIERIE

Project manager: Denis Boeglin  
1, rue du Maréchal Juin - 68390 SAUSHEIM  
T 03 89 45 45 75 F 03 89 45 14 12  
info@pierre-marchal.fr

### ELECTRICAL SYSTEM: BMA INGENIERIE

Project manager: Biagio Marra Ingénieur  
37, rue St Wendelin 68230 Niedermorschwihr  
T 03 89 30 06 75 F 03 89 30 05 73  
bmai@orange.fr

### BUREAU DE CONTROLE: APAVE

Project manager: M. EYIKAT  
Agence de Mulhouse

2, rue Thiers BP 1347 CEDEX 68056 Mulhouse  
T 03 89 46 43 11 F 03 89 66 31 76  
mulhouse@apave.com

**COORDINATION OF SECURITY: ELYFEC SPS**

Project manager: M. OSWALD  
Agence de Strasbourg  
3, rue des Frères Lumières, 67201 ECKBOLSHEIM  
T 03 88 77 21 14 F 03 88 77 92 56  
eckbolsheim@elyfec-sps.fr

**MAIN CONTRACTORS:**

Excavations:

Entreprise CLB - WINTZENHEIM 03 89 79 32 27

Metal structure:

Entreprise RENK EMILE SA - PFASTATT 03 89 53 90 54

Coverage and zinc coatings:

Entreprise SO-CEM - WITTENHEIM

Façade cladding:

Entreprise BOVE - ST ETIENNE LES REMIREMONT 03 29 262 262

Windows, carpentry:

Entreprise C.M.S. - SIERENTZ 03 89 81 66 49

Partitions, ceilings:

Entreprise REGO - LAUTENBACH 03 89 74 43 42

Heating and ventilation system:

Entreprise LABEAUNE - SUNDHOFFEN 03 89 71 44 18

Plumbing and sanitary system:

Entreprise CERT - RICHWILLER 03 89 53 28 95

Electrical system:

Entreprise EIFFAGE ENERGIE - WITTENHEIM 03 89 50 21 40

**PRODUCTS AND TECHNOLOGY MADE AND PROVIDED BY ITALIAN COMPANIES:**

Delta Light Italia (lights), Malerba Italia (doors)

**LOCATION:**

Rixheim, France

**CLIENT:**

Municipality of Rixheim

**PROJECT STATUS:**

Won competition - on site

"Where the technical problem is overcome, architecture begins" (L. Mies Van der Rohe)

A rural context and in opposition a big residential area suggested an impressive architecture, well-integrated into the surrounding landscape. The volumetric model was inspired by the Alsatian architecture's archetype, which repeated, permits to get a variable volume, suitable for a public building. Therefore the most remarkable sign is the roof that unifies all the functions under an unique architectural element. Peculiarities of site, suggested us to design a sole building. The concentration of the first phase functions in one place will permit notable economic savings and will facilitate building's management and maintenance. The proportion of the building defines a strong but simple architecture, a building that even though can be defined industrial still keeps familiar thanks to the reference of pitched roofs.
