Color palette

Wide color palette range allows you to combine variants suitable to any interior.

Advantages

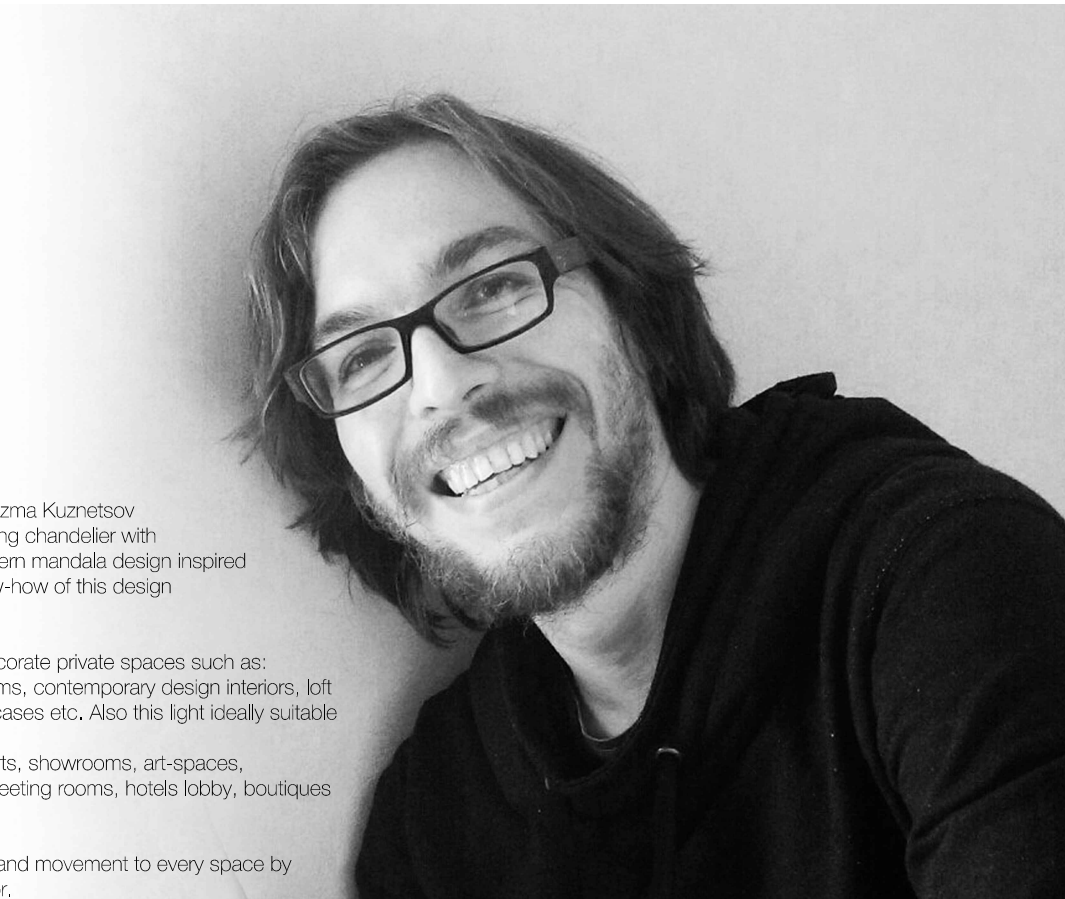

Advantages

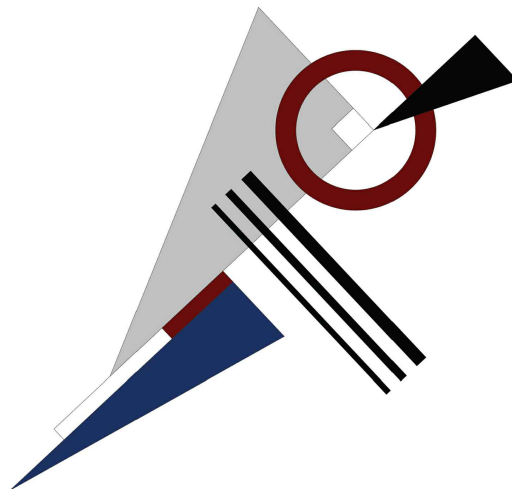

1. Lightings are manufactured of artificial felt.
Artificial felt it's hypoallergenic and absolutely harmless to health material.
2. For cleaning the plafond can be sorted, washed out in soap water and ironed through the fabric.
3. This collection is manufactured by lasercut and It is easy to fold by one detail according step by step instruction inside every box.
4. Finally you would have original accessory of your interior.
Know-how of the lighting collection is frameless plafond!

The St. Petersburg designer Kuzma Kuznetsov has developed futuristic style ceiling chandelier with bionic avant-garde form and modern mandala design inspired by Zaha Hadid architecture. Know-how of this design is frameless soft plafonds.

This chandelier will perfectly decorate private spaces such as: child rooms, playrooms, teen rooms, contemporary design interiors, loft spaces, hallways, corridors, staircases etc. Also this light ideally suitable for public spaces such as: restaurants, clubs, cafe, foodcourts, showrooms, art-spaces, co-workings, office receptions, meeting rooms, hotels lobby, boutiques etc.

This lighting will bring lightness and movement to every space by extravagant form and laconic color.
